

Micah Justice

Lyrics

Pussy whipped lyrics and music by Micah Justice

What am I am doing with a fat old cat when I'll be no
matter to him later

Why dpall like a bird with clipped wings laid out on my
back when I can still get up and run on my own two feet?

Lip is split with the dryness of this heated spit and I
know... I know.. it's where I come from.

Why do I make an ass out of you and out of me... like
you'll really understand anything? Anything...

My heart is yearning for some milk and for some cookies
Wonder if Freud would know why I'm starving myself?
I'm... disturbing peace pretty permanently
I'm just so tired of living on this shelf.

There I go once again my heart it's been broken
Funny how it happens every time you come around
Oh you're like an addiction, you're like this new age drug
that only I have found
I have found.

Lip is split with the dryness of this heated spit and I
know... I know.. it's where I come from.

Why do I make an ass out of you and out of me... like
you'll really understand anything? Anything...

Sweet Piece of Maine (circa 1999)by Micah Justice

Sitting here waiting for you to come home
So I can watch you from down below
And hear your sweet canary voice ring into my mind
Makes me leave all my troubled thoughts leave

You were rough to me
Exciting all to me
Love to have your hand touch every part of me
And I could never tell you this, itd probably be a fright
But sweet piece of Maine, youre the one I want tonight
You are probably just a man
Who takes all advantages that he can
A romantic with hard heart
Id love you so much itd tear mine all apart

I sit here singing a song of my blues
Watching my life afraid of what Id lose
Waiting for your lights to come...for your lights to come on
So I can sleep and dream on.

Irish Saavy Lyrics and Music by Micah Justice

I have scars on my face
I have scars in the wrong place
And I have so many holes
That I couldn't fill
Even if I knew what to do

And I'm singing once again
About my blues
And I apologize cause it's nothing new
Had my heart broke yet again
Now Im feeling tight
But when I sing it makes me feel alright

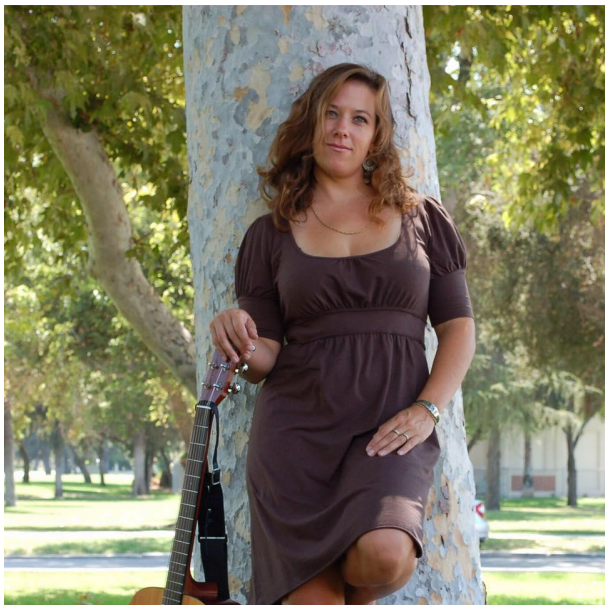

And so I'll sing til the sun comes up
And I'll sing till the moon is new
And I'll sing for the long long time
It'll take for me to get over you.

It's too bad we might have been
The best thing to come around
Instead of making music
I'll ignore the sound

I was crazy for you
You were crazy to
To let me
Slip away

And so I'll sing til the sun comes up
And I'll sing till the moon is new
And I'll sing for the long long time
It'll take for me to get over you.

Riverside

I am me by Micah Justice

You say you don't want me, it's right there in your eyes.
You say you don't love me, it's right there in your eyes.
There I go once again, my heart its been broken.
Funny how it happens every time you come around

Cuz I'm running from a past, I cannot ignore.
Im crying and dying from all the slammed doors
I try to be, but I am what I am and what I am ..I am

You say its cuz your mother doesn't like me much
Well, she's such a bitch.

You say its cuz your brother doesn't like me much,
well...he can pucker up and kiss my ass
Woe

Cuz I'm handing you the phone so you can call for help
Handing you the mirror and you're just laughing at
yourself.

And I gonna be, gonna be...cuz I am what I am and
what am...I am.

Sam Won by Micah Justice

You're so far away and I still hold you close
A memory still a photograph in my mind
Of your eyes of blue diamonds
A soul beaten soft
The heart of a lion
Courage when you talk
And I... I'm gonna be loving you
And I... I'm gonna be loving you
And only you

Even when you cry you water my roots
Your shade lets me rest and you don't deny my food
Cause in your arms I'm not lonely
Your sunshine it gives me strength
Im a flower in your bed
You don't cut me down you let me grow instead
And I Im gonna be needing you
And I Im gonna be needing you
Only you

You're so far away and I still hold you close
a memory still
a photograph in my mind.

Played By You by Micah Justice

I was sitting here

Playing these chords

And I thought they sounded kind of cool

But I couldn't help but wonder how

They would sound played by you

I won't forget the night I danced in Portland

And I fell in love with what you played

The music it came and stole my soul

And you blew my heart away

Now I'm sorry but I've got this man that loves me

And I wish for all these times I could love him too

But everytime he wants to hold my hand

Something deep inside makes me reach for you.

I'd rather be lonely

I'm about to tell this man I can't love him

And break his fragile heart

Take his dreams and take his life

And tear them all apart

By saying I'm sorry but I've got this man that loves me

And I wish for all these times, I could love him too

But everytime he wants to hold my hand

Something deep inside makes me think of you.

I'd rather be lonely

Sometimes in our lives

We don't always do what's right

But baby if you love me

You gotta let me

You gotta let me

Let me be lonely

I was sitting here playing these chords

And I thought they sounded kind of cool.

Stand Tall by Micah Justice

**You told me you would make my dreams come true
I've waited so damn long, I've almost through
I know you wont make me fall, after all,
Im just asking for a push, so I can stand up tall**

**But please take my hand
Take me to the dream land
Where I can be all I know
Take me to where I supposed to go
So I can stand tall**

**I told you I would take you where I could
Life has gotten in the way, its been for the good
I have to think of myself sometimes too
After all I'm still climbing just like you.**

**But please take my hand
Follow me to promise land
Where I know we can
I'll do my best, give you my hand
So we can stand tall**

**Funny how God will put people in your life
Some one you just met but known you've known the
whole damn time
You feel at ease the moment you become
Someone in life that they can depend on
To help you stand tall**

A little bit of heaven by Micah Justice ©
2012

**Once again I've dabbled in sin
Only to find A little bit of heaven
Well I closed my eyes only to realize
what I had found wasn't quite sound**

**I've got tattoo scars that left me here and
you far far away Everyday
So once again I sing songs and then I feel
better, I feel on mend**

**I've changed the locks the one to my
heart and you keys wont work Ive
refurbished the life that you tore apart**

**Well I closed my eyes
Only to realize what I had found wasn't
quite sound**

I'm a Sorry Woman bu Mlcab Justice

Im a sorry woman, and Im sorry all my nights

Im a sorry woman, and Im sorry all my nights

Well I wear a smile during the day time but your ghosts
comes out a night

Well Ive got nothing I can wear, oh no your bones they
take up all the space.

Well Ive got nothing I can wear, oh no your bones they
take up all the space

And this heart is weighing me down and Im stuck in place.

Well I had a man who loved me and he loved me all night
long.

Well I had a man who loved me and he loved me all night
long.

I was untrue, and now that man is gone.

Let's Go Camping by Micah Justice

Let's go camping. Just get away. Sit there
grateful. for the picture god painted today
Because I know life cuz I know life could be
different tomorrow. So let's have another
round. Take Me Home. Good by sorrow.

If I had a hammer, I'd fix your house
If I was your lover, my kitty cat would catch that
mouse
Cuz I know life could be different tomorrow, so
lets have another round, take me home, good
bye sorry

Good by sorrow, I don't ever want to see you
again
Good by sorry, no you ain't any kind of friend
So next time you go a thinking bout coming
round my backdoor

I want you to know, you ain't welcome...anymore
Cuz I know life could be different tomorrow. So
lets have another round, take me home, goodbye
sorrow.

The Missing Link by Micah Justice

You walk in my room a knight in shining armor

A badge of badness out for all to see

But attitude is everything

And when you fall your gonna come runnin, come runnin to me

Runnin, runnin (repeat __)

You walk down the halls only words of hate

Only support you've known is been by the state

You never knowin where ya going

But you always seem be stuck in the damn place

Alway...sRunnin runnin...running to me

Mama, love your babies well

Papa, love their mamas well

And baby, learn love your self

Refuge by Micah Justice

So much pain
And so much hurt
Cast out like beggars with bombs and hatefilled words

what of orphans with tears
nighthmares for years
Over lies and somebody's fears

Floating along,
Lost but not alone
Starving and dying
For a place to call home

Dying of cold
Citizens, soldiers
of wars over seas and over oil
In a rich mans war

The strength I see
It hurts my heart
How a god could allow all these people to be torn apart

People pray safely in their little towns
While across the ocean
They re being chased out.

what of orphans with tears
nighthmares for years
Over lies and somebody's fears

Breakfast with Buddha by Micah Justice

Went for walks all around the world With an elephant and five blind men
And people who were holier than thou Sat there practicing the latest sin
Ripoché's they taught me lessons all throughout my life
My daddy Allah and momma Allah's wife
My brothers and my sisters they can focus on their faith
They live their lives for gods sake

And they have breakfast with Buddha
The virgin mary she stops by
Mother teresa's their best friend
But they witness him as he is crucified

I need some intelligent words to write down for a change
Im tired of singing sad songs about love about shame
I knew that deep down in this soul there was a dark hole
I needed to shed some light
Close my eyes and listen to the breath I have in side

And then have breakfast with Buddha
The virgin Mary she stops by
Mother Teresa's is their best friend
And they witness him as he gets crucified

I will focus on the task at hand
Focus and I will try and have
A peace found deep within my soul
A peace I can share and show

We can have breakfast with Buddha
The virgin mary she stops by
Mother teresa's their best friend
But they witness him as he is crucified

And they have breakfast with Buddha
The virgin mary she stops by
Mother teresa's their best friend
But they witness him as he is crucified

Bang by Micah Justice

She grew up in a castle by the sea
watching mermaids, dragons pick their teeth
ogres always fell, maidens they were saved
After all, their father's paid

She grew her hair, a thousand locks of love
late at night you shaved it off and sold it to buy drugs
Now she walks the streets at night trying to feel right
while the villain smiles,

Put that story in their mind filled with love, none left behind
put the movie in their head And bang she's dead

Damn it prince why you have to come along and woo this little girl with your very
lovely song
oh man that's where she went all wrong
Damn it prince why you have to go away
She had eaten up the apple, every word you'd say
Closed her pretty little eyes and she died today

Put that story in their mind filled with love, none left behind
put the movie in their head And bang she's dead

Cause when we're dead we hope to go to heaven
where we're joined by the studs of studs
Who casts off all our demons

They say girl why you got to be so mean,
I say fuck being the princess Im the mother fucking queen
and Im gonna scream what I mean

They say girl why you got be so cold
Man, im just growing old
I wont just do what Im told

Put that story in their mind filled with love, none left behind
put the movie in their head And bang she's dead

Leo The Cowardly Lion by Micah Justice

What a coward
I feel sorry for you
Some people get lost,
but the path was one you knew
A lonely little boy the body of a man
You are supposed to be a lion
Instead youre just a lamb

I don't understand why you don't seem to do
All the simple little things...nothing too brand new

Hold your head high
Know the truth, don't ever be the lie
Hold your head up high
Don't let your dreams fly by, away and die

So much potential
Your stuck in the rut
So many doors opened and yet
You've slam them shut.

I would never have failed you
you only fail yourself
Where have you gone wrong
Why wont you help yourself?

I know Im supposed to let it go
They all tell me, don't work home

Im surrounded by potential, but somehow you let me down
Youll always be the pauper, when you could wear the crown

Hold your head high
Know the truth, don't ever be the lie

Hold your head up high
Don't let your dreams fly by, away and die

Running by Micah Justice
Went to rub away the pain
Found out I might take my life away
If I'm gone tomorrow will you know my name
If I die tomorrow Will I have lived today

When I die will you cry
Will everything be the same?
When I'm gone, you have the song, I want you to sing along

They say take a number, get in line
Take my blood then take their time
Something grows inside my chest,
Is it fear, pain, will I lay at rest?

Will I be running from the Devil
Flying away
Will I leave feeling like I lived today

Get Over It by Micah Justice

Went for a walk tonight and saw such a sight
She held your hand now I standing holding my
heart

Walked away feeling safe, a lie you prayed
would stay in the dark

And I'll try, try and forget and I'll wander on
and get over it

Well I've some choice words, but God is
listening

So I'll wonder on and try and do it peacefully,
Want you to know, I 've learned something
from you

I now understand how some people choice
To try, try and forget and they wonder on and
get over it

Want you to know come ten years from now,
you're gonna want to be in my space and I'm
gonna laugh in your face, Im gonna sing my
heart out and you Ill replace and

you'll try oh you'll try and forget while I've
wondered on so over it.

Go on by Micah Justice

When I was a young girl, my mama told me dear
You gotta become something, you gotta get out of here.
She told me pack my things, told me I was on my way
She told me that she loved me I best be on my way...she
said

GO on Go on Get out of here.

I wasn't more than twenty I was living on m y own, when
the devil came to town, trying to own my soul

I said look here Devil I will surely be your wife, blinded by
the passion gave the devil this here life
to go on to go on get out of here.

Well, I gave him three good daughters and I gave him just
one son and I tried to forget all the things I could've done

He came home late one to many times, told the devil I
was done with him and left that very night
Said go on go on get out of here

Susy grew to eighteen a singer of her own, she said mama
I love you nd now that I have grown gonna take this guitar
and go and sing my songs, Im gonna live the life you
wanted all along...

Said go on go on get out of here

Lost Art by Micah Justice

Well It's A Lost Art, it's a lost art. It's a lost art.

You felt so old, on the day, when looked in the mirror and
your hair was gray

By then they had went away

And ya finally found the words ya wanted to say

Put your hands down on the keys

Sing your heart out setting it free.

Go ahead and dance

Like no one was watching

Its a lost art

When your peace is shattered

Your heart gets torn your faith's been tattered

It's a lost art

Its a lost art

When you find your hurt

Forgive the critic know your worth

Its a lost art

Well its a lost art

To take the black and blue

Paint a picture it'll help you through

Love is a lost art

Its a lost art when close your eyes, you still have dreams so
visualize

Its hurt like this that makes us wise.

It's a lost art. It's a lost art. It's a lost art.

Saving Grace by Micah Justice

**My momma loved me until the day she'd died
She tried to raise me... raise me up just right
You come walking in and you're taking me home tonight**

**And I'm a good girl with bad intentions
Im a sweet talker with quite the pension
For breaking young girls hearts but you're tearing mine apart**

**And Im a clean girl who can dress a little dirty
I'm a smart girl who don't know that shes's so pretty
Smile that ll make you cry
I'm the one to get you by.**

**And I'm good woman convicted in my ways
I'm a good woman who can put you in your place
You got me now
I'm your saving grace.**

**I lived a long life lonely many years
I was what youd call a party I drank all your beer
Don't need it now, I got you standing here
Now that I found you said where you been all my life
Cause boy I love you and I'm gonna be your wife
We'll walk hand in hand cause I'm your girl and your my man**

**And I'm a clean girl who can dress a little dirty
I'm a smart girl who don't know that she's so pretty
Smile that ll make you cry
I'm the one to get you by.**

**And I'm good woman convicted in my ways
I'm a good woman who can put you in your place
You got me now
I'm your saving grace.**

Heard by Micah Justice

I traveled through the continent searching for something new thought I'd found it when I had found you
ah Justice (Am F C G throughout the entire song)

Nah Nah Nah (repeat)

I remember long ago when I looked into your eyes heard you say you loved me, but you just
Lied, I remember you took me away for the day..so happy, it didn't stay that way

Nah Nah Nah (repeat)

Could have sworn you felt the same, you had wanted me near but
today..you don't want me here
Nah Nah Nah (repeat)

We both worked oh so hard, living life on our own.
We sneak away for lovin, there was kissing, there was hugging, I thought it was for real.
Finally let go of doubt, finally let go of fear All my prior wounds were being held

I heard what I wanted to , heard that you needed me to, but now you walk away
Heard what I wanted to heard that you loved me too and now you've no more to say

Now I can't sleep through the nights, without thoughts of you running through my head
I can't sleep through the nights without thoughts of your arms taking me in
I hear your laughter down the hall Feel you by my side I wake alone instead
It's all in my mind

I heard what I wanted to , heard that you needed me to, but now you walk away
Heard what I wanted to heard that you loved me too and now you've no more to say

Moonshine Love by Micah Justice

Moon shine love got to keep it hidden
Work by the moon light a few days a
month

Hide it in the trees
Shares it in our dreams
Cause this love will fuck you up

Moonshine Love

Moon shine love
Its quite complicated
A simple combination of just the right
stuff
Hold it in your soul and you feel whole
but really your just drunk

Moonshine Love

Mr. Nice by Micah Justice

It's late at night and you should close your eyes
Instead you have sorrows haunting your mind
Case your running through the halls slamming all the
doors breaking windows cause she don't want you
anymore

Now your running through the desert in search of peace
cuz your afraid of drowning in this shit filled creek
A nightmare it has come true a lie whose truth you
always knew

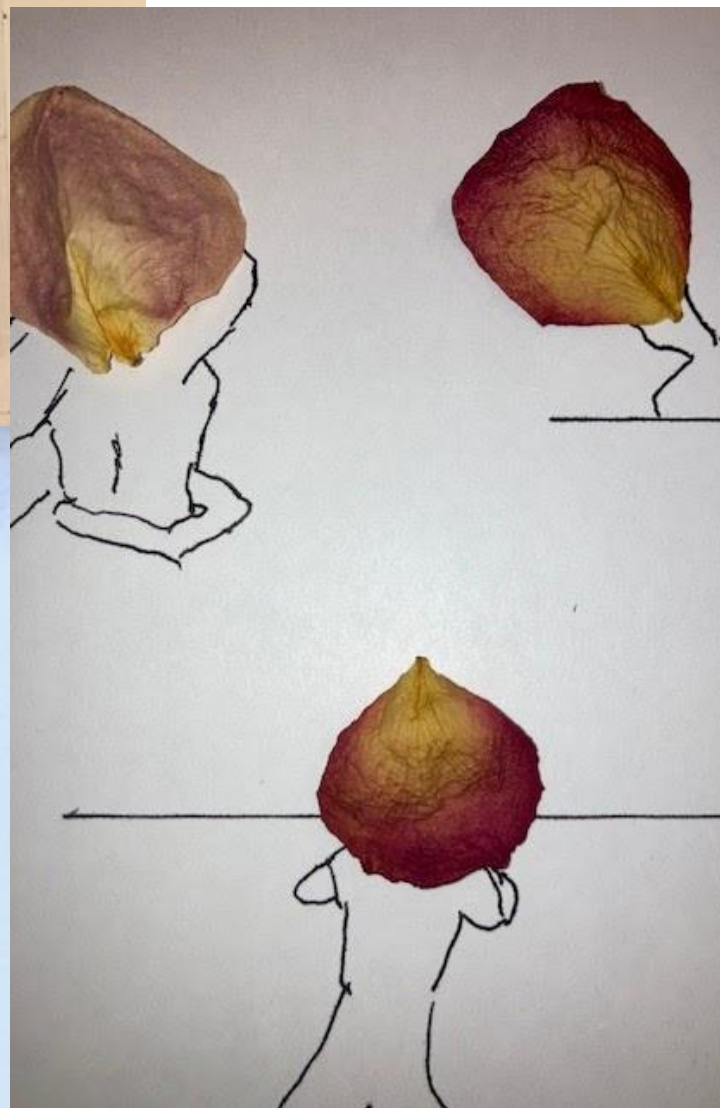

And your running through the halls slamming all the
doors breaking windows cause she don't want you
anymore

And your lost hoping not to find what you knew all the
time you don't have to be no have to be nice.

And time will ease the pain
Here's hoping you can love again (repeat)

Instead of running through the halls slamming all the
doors breaking windows cause she don't want you
anymore

And your lost hoping not to find what you knew all the
time you don't have to be no have to be nice.

Our Last Beer by Micah Justice

We are down to our last beer oh dear
We are down to our last puff of the good stuff

We have a dollar to our name, but it's the same
We have no minutes to our selves oh well
And I would want to spend it all again with you.

Lose the tear drops from our eyes don't cry
Just think we never have to fight its just one night
And I would want to spend it all again with you.

We are down to the last touch the sun is up
We are down to the last time, lets let it shine
And I would want to spend it all again with you

Ive gone without and I know now
And I would want to spend it all again with you.

We are down to our last beer oh dear
We are down to our last puff of the good stuff

We have a dollar to our name, but it's the same
We have no minutes to ourselves oh well
And I would want to spend it all again with you.

Lose the tear drops from our eyes don't cry
Just think we never have to fight its just one night

We are down to the last touch the sun is up
We are down to the last time, lets let it shine

And I would want to spend it all again with you.

Keep Me Warm by Micah Justice

One cold and lonely night

You seemed to keep me warm

The stars they shine so bright

All wrong and it felt so right

You keep me warm

You keep me warm

His words they were cold

My heart felt so empty

A touch a smile

And you lit this fire

Keep me warm

I was running through a forest made of stoned trees

And every time I lit my match the only thing that'd
burn was me.

I was flying through the sky, falling at a speed

That I was blinded by the ice, but somehow you
rescued me.

Keep Me Warm

Wont let me burn too bright

Wont let me get too big

Youre gonna burn down this life

Out with the old, let the new life in

Keep Me Warm

Mad Roses Song by Micah Justice

**Maybe I'll be able
I pray that I'll be stable
And after its all said and done
Satan won't say he's won**

**Maybe when Im older
And dying I can hold her
And I pray that she will cry when it's time to say goodbye**

**Cause I do the best I can. I've walked when I should have ran
I have yelled when listening would have been what she needed.
Its true
But through it all my dear
I ve loved you**

**Maybe she'll be a star in whatever way of life, I know that she'll
go far I hope she won't resent this old heart that's torn and bent
I do the best I can I know she's heaven sent**

**Cause I do the best I can. Ive walked when I should have ran
I have yelled when listening would have been what she needed.
Its true
But through it all my dear
I ve loved you**

**Maybe a doc will say shes broken after all the things Ive spoken,
being mean isnt what I meant. You were tough nd wouldn't bend
you left me tired and feeling spent but I wouldn't trade a second.
I love you**

**Cause I do the best I can. Ive walked when I should have ran
I have yelled when listening would have been what she needed.
Its true
But through it all my dear
I ve loved you**

Shooting Star by Micah Justice

I have traveled a thousand miles to play for free
I say I do it for you but really it's for me.
And I can't help what runs through my mind
We talked just this morning just like it was yesterday
and I can't help wanting to hear what you say

But I am taken by another world
I am a shooting star that shines so far away
And I am taken by another's dream
I'm just the nightmare that nobody sees

Maybe I'm just too dumb to love him
I know it is what it is
But I can't help wanting more than this
I know the ship is sinking and it's better we just get
off
But I can't help not wanting it at all

But I am taken by another world
I am a shooting star that flies so far away
And I am taken by another's dream
I'm just the nightmare that nobody sees

Ice Queen by Micah Justice

Boy I have it bad for you
Just watching you smile drives me wild
You stride in with such a confidence
It could be fun for a while

I wonder would you be worth it
I know it would be exciting.
Taboo
Something I want to do
But I know I shouldn't be wanting you

I'm the ice queen and I know loving you would destroy me.
But a day in the sun sure sounds fun
Would I even have a chance?
A dance between the sheets
Oh man if only I could cheat
It'd be with someone like you

Driving along
singing these songs
all about you

Why do these things
Keep happening to me
Did I ever grow up
Did I not get enough
What the fuck is wrong with me

I'm the ice queen and I know loving you would destroy me.
But a day in the sun sure sounds fun
Would I even have a chance?
A dance between the sheets
Oh man if only I could cheat
It'd be with someone like you

You are like a gentle hug
Our talks I've really dug
A deeper and deeper hole that's gonna bury me.

I feel this strength is going fast
Each time your wonder past
And I wonder, would I feel free?

I've no heart by Micah Justice

Sometimes I write of love
My pen it says it all
My love is safe between the lines

When you heart hears what I have to say
Lord it'll be the day
We're gonna get to do things ourway

But now ain't the time
Now I can only give you rhymes
I've no heart to give away
---I've only words today

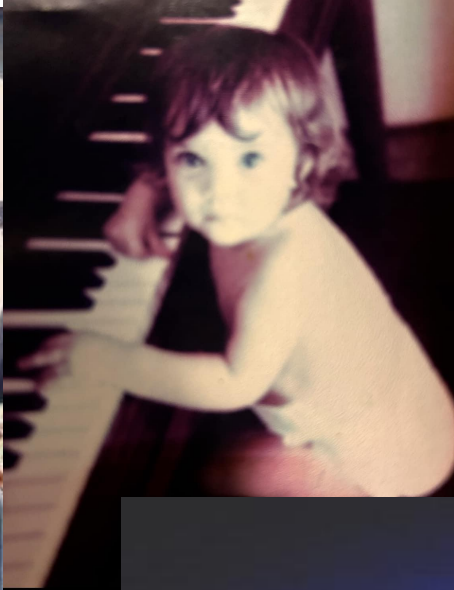

They say there's strength in numbers
Here's a problem just for you
One and one and one aint adding up to two

They claim that theres a formula
Cures what ails but it's killing us
Love seems to run away with time.

But now ain't the time
Now I can only give you rhymes
I've no heart to give away
---I've only words today

They say I'm a dreamer
The poet whose hearts always breaks
But I've only pen and paper
Listen to what the words say

They say I'm no student
My heads often in a haze
But I've studied every word and loved you on every page

Secret Heartache

By Micah Justice

You're just one of many I gave my heart
see I was desperate from the very start

I know I have brains my soul gets in the way
you think after all the lives I've lived I'd have paid

how do I go home after all the things I've done
chalk it up to secret heart ache out of many you're just one

so tell me love, you ain't my love
tell me friend, hell that's not how this ends
you called it romance Just Called It Fun
please mr. Sandman won't you come come come

so I can close my eyes and dream of something real
or just be dead asleep so I don't have to feel
this fun romance it never had a chance
this fun romance was more than happenstance

how do I go home after all the things I've done
chalk it up to secret heart ache out of many you're just one

why don't you hurt
why can't you feel
foolish for thinking someone
could love me...like me for real

How Do I
By Micah Justice

I sit so far away from you
but I wonder what you're doing now
now are you smiling because big blue eyes
we're always are when I'm around

Tell me how..
how do I I
get you off of my mind
Tell me...
how do I
even try

I sit so far away from you
Haven't heard from you in quite a while
I feel like you're moving on
Praying "sweet Jesus" that I'm wrong

Tell me how..
how do I I
get you off of my mind
Tell me...
how do I
even try

I took a chance
bought a ticket
Straight to Hell
you walked in
stole my heart
That's how this angel feel

Tell me how..
how do I I
get you off of my mind
Tell me...
how do I
even try

I sit and wonder why I even cry
When you may have never loved me
I see sadness in you eyes
Every time I see you since we said goodbye

Tell me how..
how do I I
get you off of my mind
Tell me...
how do I
even try

Biggest Regret by Micah Justice

I refuse to be your biggest regret.
I want to be the one you can't forget.
I know I'm broken
and I know I'm weak
but I want you to want you, want to love me.

I want forever and I want right now
f*** the silence I want sound
all of the lies and your dirty little secrets
will you can trust me ...I can keep them

I don't want to be a nuisance or a burden
Give me your hand and your heart
and promise not to hurt them

I know you think I think you
hang the stars
and the moon
but this weak broken girl
Well she can hang those too

Lullaby by Micah Justice

Good God there's something about you
That I just cant get you off my mind
And I believe it when you say you love me most of
the time

So sweet, so lame,
I've lived in drought and you are my rain
You are my rain

And I'm your lullaby, la la la lullaby la la la la and lie
and lie and lie and lie and lie

Busy but you find the time,
Uptight, with you I unwind
With you my breath it seems I find, and you I don't
mind

And I'm your lullaby, la la la lullaby la la la la and lie
and lie and lie and lie and lie

When you say "oh you're my girl"
I cry, cause you're my whole world
And I can see we're meant to be

And I'm your lullaby, la la la lullaby la la la la and lie
and lie and lie and lie and lie

Just Last Night by Micah Justice

Your words were honey
I ate up what I could
Allergic to your bite but damn it felt so good

you'd never lie oh no
A serpent never would
Tricked me with you magic lips
Told me I was good

Just last night
You told
I was the one
On your cloudy days
I was your sun

But once again
I got to close
I was to fast
It's how the story goes

Told me I was beautiful
Just what I like to hear
I sounded great
Things were good,you, happy I was here

But today ya say
Maybe we should take a break
There ya go honey theres the door
I dont want you no more

Just last night
You told
I was the one
On your cloudy days
I was your sun

But once again
I got to close
I was to fast
It's how the story goes

And when I wake up tomorrow
Itll be the same
When I close my eyes
Nothing will have changed
Oh wait...

Once and A While by Micah Justice

She's killed to many
She's lucky to see straight
She's the old lady courting young men
Easing her pain

There's a certain sense of honesty
Of finally filling a need
Casting off the pain
And finally feeling free.

Once in a while
You want someone holding your hand
Once and awhile
you'll fight to understand
Why you're all on your own
And you're all on your own...tonight

Who are we here for
You and me and this I guess
Finally the urge to go out
And the strength to get dressed
Surrounded by people with no desire to talk
Got shoes on your feet and you're fighting the urge to walk

Once in awhile
You want someone holding your hand
Once and awhile
you'll fight to understand
Why you're all on your own
And you're all on your own...tonight

Been a year since he's gone
Its been three since it went all wrong
The day we put it in the ground
Was the day that we found

Once in a while
You want someone holding your hand
Once and a while
you'll fight to understand
Why youre all on your own
And youre all on your own...tonight

My Moon, My Sky by Micah Justice

An angel fallen from above
Down from the sky
Swept up with the waves
Left there by the tide

As I watched the water flow
There in the winds
I thought about the danger
of letting someone in

Be my moon,
My sky
My everything until the day I die

My rock
That I stand upon
Take me with you I'll go anywhere
As long as you are there

I was finally learning to swim
decided I wanted to live
Your waves I would ride
Dying to go to paradise

As I watched the water flow
There in the winds
I thought about the danger
of letting someone in

Be my moon,
My sky
My everything until the day I die

My rock
That I stand upon
Take me with you I'll go anywhere
As long as you are there

Let your waves crash down
What would keep me from you
Let the rains fall down
Let the floods carry me to you

Be my moon,
My sky
My everything until the day I die

My rock
That I stand upon
Take me with you I'll go anywhere
As long as you are there

Punk Rock and Patsy Cline

Lyrics & Melody by Micah Justice Music By Cesar Simo

Every day when I get home
Looking forward to gettin stoned
See my honey
Maybe drink a beer

He brings me snacks
Don't have to ask
Says he loves me and slaps my ass
He's the man of my dreams

He's got his way and I have mine,
He's more punk rock,
I'm more Patsy Cline
Don't drink to much
He gets my high
I don't want your man
I like mine.

Man he comes when I ask him to
Says yes mam and I love you
I trust him with my life

He likes me naked a
And likes me fat
Can't ask for more than that
He's the man I give my heart to

He's got his way and I have mine,
He's more punk rock,
I'm more Patsy Cline
Don't drink to much
He gets my high
I don't want your man
I like mine.

Every day when I wake up
He pours out love and fills my cup
I am enough

He's got his way and I have mine,
He's more punk rock,
I'm more Patsy Cline
Don't drink to much
He gets my high
I don't want your man
I like mine.

Moved On Lyrics by Micah Justice Music By Micah Justice and Cesar Simo

Well I had a million words I left wanting to say
But filled with the loss I went and got lost in my ways
Your sentence was stunning I found myself running away
The chapter is ending and here I am to say

Ive moved on
Found a man
A man who can do all the things that you cant
A man who love me and be so proud of me
My man

He brings me coffee in the morning
At night he joins me between the sheets
I sleep like a baby Ive finally saved me at last
Strong all day long and at night I can rest

Ive moved on and found a man
A man who can do all the things that you can't
A man who love me and be so proud of me
My man

They've said no one would want me
How those words still haunt me again and again
THEY said you would still leave me
How they deceived me
And now again

Ive moved on and found a man
A man who can do all the things that you can't
A man who love me and be so proud of me
My man

Good Night Darling by Micah Justice with Cesar Simo

Keep feeding me weed cause the bullshit I don't need.
Tell me lies and truth at the same time
Say Im right when Im wrong
Stay when everyone else is gone

Be good night darling
Be my good night darlin
Be my good night darlin
Be my good night

I'm weird and Im broken
I'm holy and I know it
Im impatient, self centered, and kind
Hold your hand where we go
So everybody knows that I'm yours and your all mine

Be good night darling
Be my good night darlin
Be my good night darlin
Be my good night

Let me sleep warm in your arms And wake you with a smile
Let me be yours sweet love And stay a while

Be good night darling
Be my good night darlin
Be my good night darlin
Be my good night

Keep feedinme weed

I'm In Love

by music by Cesar Simo and Micah Justice

Well I see that you got it all worked out

I was a lost cause. Had learned go living with out

Avenues traveled all on my own ...Climbed so many hills

I was a mess You went and found my heart
I find my rest, I fell asleep there in your arms

I'm in love I finally see what it's all about
I'm in love with you Don't want to go without
I can see Not blinded the fight
You keeping me warm at night

Tried not to drown for years, swimming in these seas
I can rest my head, you make sure I can breath
God went and put you on this path
and now I know its gonna last

I'm in love I finally see what it's all about
I'm in love with you Don't want to go without
I can see Not blinded the fight
You keeping me warm at night

Junky for your touch

I'm a junkie for your touch

I'm a siren for your sea

I'm everything bad for you

and you're nothing but good to me

and I have lived inside a sinking ship

I know I'll survive cuz I know how to swim

but your arms were an Island where I would rest my head.

I know I'm alive. I'd rather die with you instead

Your sugar was so sweet,

that I had to go and eat it up.

I went and fell fat in love

Just to die of a heart attack.

and I have lived inside a sinking ship

I know I'll survive cuz I know how to swim

but your arms were an Island where I would rest my head.

I know I'm alive. I'd rather die with you instead

your words are a gail

That went and caused a storm

Capsized this beating boat

Sank into the waters, those no longer warm

Left abandoned on the bottom of the sea

But im just a siren, and ill just sing

In hopes youll fal back in love me

your sugar was so sweet

I went and ate it up

I went and grew fat in love

To die of a heart attack

Little Rich by Micah Justice

you always seem to waste my time
Say you'll be Buy one
don't hear from you till nine
I know you make your dollars selling more than dimes
but when I'm laid out on my back you seem to find the time

and life has a way of saving you a place
When I'm good and feeling down
you lift me up and take away the pain
when I'm with you I feel found.

you say you want to take my hand
make me your queen
ruler of your land

I know it all don't you understand
you know me so well I do the best I can

and life has a way of saving you a place
When I'm good and feeling down
you lift me up and take away the pain
when I'm with you I feel found.

and life has a way of saving you a place
When I'm good and feeling down
you lift me up and take away the pain
when I'm with you I feel found.

You dont bring me roses it leaves me so blue
Your love aint magic im just spell bound on you

and life has a way of saving you a place
When I'm good and feeling down
you lift me up and take away the pain
when I'm with you I feel found.

Whole Lot of Heaven by Micah Justice

You're a whole lot of Heaven and a little bit of hell.
And a stranger I want to know, but a devil I know well.

You through the hook and I bit,
your bait was love and I swallowed it
Cupid went and shot an arrow between my ribs

you set fire to your wings
when you could be so many things
You're just a poor boy throwing away a queen
You set fire to your wings

Set Fire To My Wings
When you could be so many things
You're just a poor man throwing a queen
You'll set fire to my wings

Dear Asshole i write this letter to help me cope cause all the booze, and
the love and the dope it don't gimme no hope
Dear disaster I hear your silence loud I heard it clear
Made me dance all by myself
Made me believe you were something else.
You through the hook and I bit,
your bait was love and I swallowed it
Cupid went and shot an arrow between my ribs

you said fire to your wings
when you could be so many things
You're just a poor boy throwing away a queen

You set fire to your wings

"Dead to me" by Micah Justice (lyrics and melody), music by Bill Preci

We used to jive real well. Make music so sweet
You let the devil in, but said the problem was me

You thought it was a match, well it turned to a
torch

You let the house burn down, didn't want it any
more

They'll bury what's left and bury it deep.
And I won't care, you're already dead to me.

I'll be sitting on a big stage knowing where it all
went wrong
You said you'd stay but now you've gone

You spoke to soon, put both feet in your mouth
Thought you knew but you didn't figure it out

They'll bury what's left and bury it deep.
And I don't care, you're already dead to me.

If we ever go to war, you're the first that ill be
looking for
Im gonna track you down and rip out your heart.

We used to jive real well. Make music so sweet
You let the devil in, just so you know it wasn't me

They'll bury what's left and bury it deep.
And I don't care, you're already dead to me.

I Need My Sleep by Micah Justice

I guess you took your last swallow of the
poison in the bottle
You were dying while we watched the devil smile

We traveled along long road
Out of service, missing home
When I finally got to know ya

I need my sleep

I can just imagine
You the cocaine addict
Telling me how to live my life
Living yours I'd be dead in no time

Never did I know, you'd say hateful things
The noise kept me up at night.

I need my sleep

You said she knew your songs
My idea all along

What could of been wasn't real
lesson that I learned
nobody's real here

I need my sleep
